

Joyce's Jottings

The holidays are upon us, whether we are ready or not! It is unbelievable how fast time flies. Before we know it the new year will be upon us, but we still have some time left to do our holiday sewing. There are several new fall patterns and books you need to come in and see. We have you covered for seasonal sewing projects.

Aleisha gathered a group of patterns that lend themselves to the Moda marbles fabric that we have in stock. There are several new colors we have added to this line. Vicki has been working on some cute projects as well.

If you need a notion or ruler that we don't carry let the girls know and we will try to get it for you. Have a great Thanksgiving and remember all the wonderful things we have to be grateful for.
