

Joyce's Jottings

The first quarter of the year has ended! What progress have you made on your UFO'S or WIP'S? Maybe you are ready to start something new for Spring. Come in and check out what we have been working on, it just might inspire you to begin a new project.

We've also started stocking wool. All of you wool appliquers now have a source close to home. If you missed out on Annie's House, the remaining fabric has been placed on the shelf for sale.

We continue to add some neat classes planned for you. Be watching at the shop to see what is in store in the coming months. Suggestions are warmly welcome.
